

§ 2301.23

15 CFR Ch. XXIII (1–1–13 Edition)

equipment to the Federal government or an eligible third party, in accordance with Office of Management and Budget guidelines.

(g) *Transfer of Federal interest to different equipment.* The Department may transfer the Federal interest in PTFP-funded equipment to other eligible equipment presently owned or to be purchased by the grantee with non-Federal monies, provided the following conditions are met:

(1) If the Federal interest is to be transferred to other equipment presently owned or to be purchased by a grantee, the Federal interest in the new equipment must be at least equal to the Federal interest in the original equipment.

(2) Equipment previously funded by PTFP that is within the Federal interest period may not be used in a transfer request as the designated equipment to which the Federal interest is to be transferred.

(3) The same item can be used only once to substitute for the Federal interest. However, the Federal interest in several items of equipment from different grants may be transferred to a single item if the request for all such transfers is submitted at the same time.

(4) A lien on equipment transferred to the Federal interest may be required by PTFP and must be recorded in accordance with § 2301.23(b)(8). A copy of the lien document must be filed with the PTFP within sixty (60) days of the date of approval of the transfer of Federal interest.

(h) *Termination by buy-out.* A grantee may terminate the Federal revisionary interest in a PTFP grant by buying out the Federal interest with non-Federal monies. Buy-outs may be requested at any time.

Subpart E—Completion of Projects

§ 2301.23 Completion of projects.

(a) Upon completion of a *planning* project, the grantee must promptly provide to the Agency two copies of any report or study conducted in whole or in part with funds provided under this program.

(1) This report shall meet the goals and objectives for which the grant is

awarded and shall follow the written instructions and guidance provided by the Agency. The grant award goals and objectives are stated in the planning narrative as amended and are incorporated by reference into the award agreement.

(2) The Agency shall review this report for the extent to which those goals and objectives are addressed and met, for evidence that the work contracted for under the grant award was in fact performed, and to determine whether the written instructions and guidance provided by the Agency, if any, were followed.

(3) If the Agency determines that the report fails to address or meet any grant award goals or objectives, or if there is no evidence that the work contracted for was in fact performed, or if this report clearly indicates that the written instructions and guidance provided by the Agency, if any, were disregarded, then the Agency may pursue remedial action.

(4) An unacceptable final report may result in the disallowance of claimed costs and the establishment of an account receivable by the Department.

(b) Upon completion of a *construction* project, the grantee must:

(1) Certify that the grantee has acquired, installed, and begun operating the project equipment in accordance with the project as approved by the Agency, and has complied with all terms and conditions of the grant as specified in the Grant Award document;

(2) Certify that the grantee has obtained any necessary FCC authorizations to operate the project apparatus following the acquisition and installation of the apparatus and document the same;

(3) Certify and document that the facilities have been acquired, that they are in operating order, and that the grantee is using the facilities to provide public telecommunications services in accordance with the project as approved by the Agency;

(4) Certify that the grantee has obtained adequate insurance to protect the Federal interest in the project in the event of loss through casualty;

(5) Certify, if not previously provided, that the grantee has acquired all necessary leases or other site rights required for the project;

(6) Certify, if appropriate, that the grantee has qualified for receipt of funds from the Corporation for Public Broadcasting;

(7) Provide a complete and accurate final inventory of equipment acquired under the project and a final accounting of all project expenditures, including non-equipment costs (e.g., installation costs); and

(8) Execute and record a final priority lien, if required by PTFP, reflecting the completed project and assuring the Federal government's reversionary interest in all equipment purchased under the grant project for the duration of the Federal interest period.

(c) When an applicant completes a construction project, the Agency will assign a completion date that the Agency will use to calculate the termination date of the Federal interest period. The completion date will usually be the date on which the project period expires unless the grantee certifies in writing prior to the project period expiration date that the project is complete and in accord with the terms and conditions of the grant, as required under § 2301.23(b)(1). If the PTFP Director determines that the grantee improperly certified the project to be complete, the PTFP Director will amend the completion date accordingly.

§ 2301.24 Final Federal payment.

If the total allowable, allocable, and reasonable costs incurred in completing the planning or construction project are less than the total project award amount, the Agency shall reduce the amount of the final Federal share on a pro rata basis. If, however, the actual costs incurred in completing the project are more than the estimated total project costs, in no case will the final Federal funds paid exceed the grant award.

§ 2301.25 Retention of records and annual status reports.

(a) All grantees shall keep intact and accessible all records specified in Office of Management and Budget Circular A-110 (for educational institutions, hospitals, and nonprofit organizations), or 15 CFR part 24 (for State and Local Governments).

(b) Recipients of construction grants:

(1) Are required to submit an Annual Status Report for each grant project that is in the Federal interest period. The Reports are due no later than April 1 in each year of the Federal interest period. Information about what is to be included in the Annual Status Report is supplied to grant recipients at the time grants are closed out.

(2) Shall retain an inventory of the equipment for the duration of the ten-year Federal interest period and shall mark project apparatus in a permanent manner to assure easy and accurate identification and reference to inventory records. The marking shall include the PTFP grant number and an inventory number assigned by the grantee.

(3) May also be required to take whatever steps may be necessary to ensure that the Federal government's reversionary interest continues to be protected for the 10-year period by recording, when and where required, a lien continuation statement and reporting that fact in the Annual Status Report.

Subpart F—Waivers

§ 2301.26 Waivers.

It is the general intent of NTIA not to waive any of its regulations. However, under extraordinary circumstances and when it is in the best interests of the Federal government, NTIA, upon its own initiative or when requested, may waive the regulations adopted pursuant to section 392(e) of the Act. Waivers may only be granted for regulatory requirements that are discretionary.
